Heather Bradbury - [heather.bradbury@nature.com](mailto:heather.bradbury@nature.com)

For book reviews and obituaries:

Jadene Doak - [jadene.doak@springernature.com](mailto:jadene.doak@springernature.com)

For *BDJ Team* and questions about *BDJ Upfront* or *Letters*:  
[k.quinlan@nature.com](mailto:k.quinlan@nature.com)

For *BDJ Student* magazine and *enewsletter*, plus *BDJ In Practice*:  
David Westgarth - [david.westgarth@bda.org](mailto:david.westgarth@bda.org)

# A QUICK GUIDE TO THE BDJ PORTFOLIO FOR NEW DENTAL WRITERS

**Are you interested in getting your writing published?  
We have several places where you can do this in the *BDJ* Portfolio.**

You must submit original content that has not been published elsewhere. If you have written something for another *BDJ* publication, e.g. *BDJ Student* magazine, please contact the editorial team to see if it would also be appropriate for publication elsewhere in the *BDJ* Portfolio. If you are successful in getting an article approved for publication, your article must be exclusive to the *BDJ* Portfolio.

## **British Dental Journal**

Set up in 1872, the *BDJ* is an international, peer-reviewed journal and one of the longest established dental journals in the world. It is the flagship journal of the British Dental Association. The role of the *BDJ* is to inform its readers of ideas, opinions, developments and key issues in dentistry - clinical, practical and scientific - across all disciplines.

## **BDJ Team**

*BDJ Team* is aimed at dental care professionals (DCPs) including dental nurses, dental hygienists, dental therapists and orthodontic therapists. If you would like to submit an article or piece of research relevant to DCPs, write about your career in dentistry, or be interviewed for a feature, please get in touch.

## **BDJ Open**

An online, open-access journal publishing original primary research, study protocols and clinical trials from a wide variety of dental and oral health disciplines. Open access means that your research will be free to view by dental researchers around the world. Authors whose papers are accepted for publication in *BDJ Open* are required to pay an article processing charge (APC).

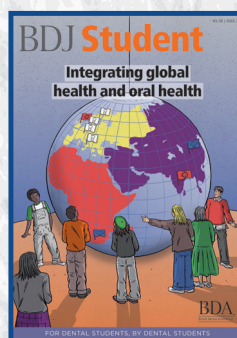

## **BDJ In Practice**

*BDJ In Practice* aims to inform and educate the dental audience on developments, trends and issues affecting dental practice in the UK.

## **Evidence-Based Dentistry**

*EBD* aims to create a dialogue between dental practitioners and dental researchers, in order to drive new research and promote the use of the best available evidence to inform clinical decision making.

## **BDJ Student**

*BDJ Student* is the BDA's dedicated magazine for dental students. We look at all sorts of articles from every year group. Letters, opinion pieces, electives, clinical insights or even guidance for lower year groups - it's all there.

## **BDJ Student newsletter**

*BDJ Student* newsletter is for BDA student members. There are 11 editions each year, so it is much easier to get an article published here than *BDJ Student*. We are interested in articles about careers, events or opinions of around 500 words.
